

HEFFLEY CREEK ANIMAL CLUB

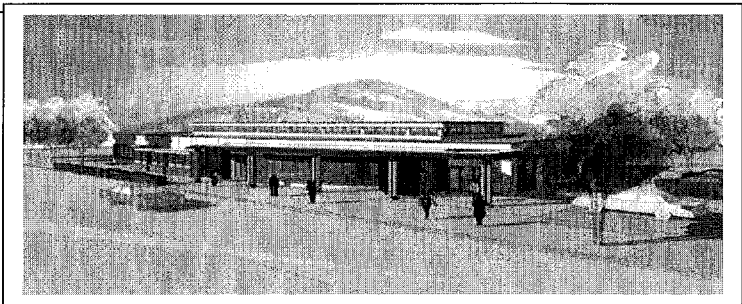

Volume 2, Issue 2
May 2017

Well our School year is just about over, but our little Animal Club has still been busy. This year the student's have taken a strong leadership role: Co-chairpersons Lyla Lougheed and Jamie Angus share the responsibility of organizing weekly meetings for our 10 member group. Each group member selects an animal in which to learn and share information with other members on interesting facts, animal care, and potential dangers for the animal and/or to humans.

This year our Animal Club members chose to start a fund raising mission to help the Kamloops Animal Shelter build their new facility. The children asked me to find a *Piggy* bank and they have been donating to that bank for the whole school year! We have not yet opened the *Piggy* bank, but we will do so next month for the BIG counting.

Additionally, the Animal Club would like to give a **HUGE THANK YOU** to the **Heffley Creek PAC** who upon hearing of the children's fundraising idea has donated an additional \$50 to go in to the *Piggy* bank.

Below is a picture of the new facility, which CEO Daniel Craig says, will transform how abused and abandoned animals are cared for in our region, and it will make Kamloops one of the most humane areas in all of BC!

With all this hard work and dedication I felt the students deserved a little trip to the Kamloops Shelter. I have arranged for us to go on a tour of the current facility on Saturday June 17, 2017.

This is not a school sanctioned event, but rather a volunteer activity. Parents and siblings of the Animal Club members are welcome to attend. We will be driving private vehicles and need to be at the Shelter by 11:00am. If your Animal Club member would like to attend please have them here at the School by 10:00am. We will plan to leave @ 10:30 am. Please send back this little form:

YES _____ **would like to attend.**

YES or NO (please circle one) **I would be able to assist with driving.** No. of students _____
